

REMARKS

Claims 15 - 24 are pending. Claim 14 has been cancelled and claims 15-18 have been amended. No new matter has been introduced.

In the May 26, 2005 Office Action, the Examiner rejected claims 14 and 16-18, and objected to claim 15. Claims 19-24 were added by a Preliminary Amendment, but not addressed in the May 26, 2005 Office Action.

In the May 26, 2005 Office Action, the Examiner stated that the art does not teach nor suggest a second connector such as 83 in Fig. 3 of the application coupled to sink 71 and exposed outside the apparatus. The Examiner stated that Claim 15 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant has rewritten claim 15 to be in independent form including all limitations of claim 14, and therefore submits that claim 15 is allowable.

Applicant has amended claims 16-19 to recite limitations similar to amended claim 15. Specifically, these claims now recite *a heat sink thermally connected to said heat generating component ... wherein said second connector is coupled to said heat sink*. Thus, Applicant submits that claims 16-19 are also allowable.

On September 8, 2005, Applicant's attorney had a telephonic interview with the Examiner. The Examiner indicated that he would create an interview summary for the file. In the interview, the Examiner indicated that the art does not teach or suggest a *second heat sink thermally connected to the first heat sink when coupled to the electronic apparatus and a second connector provided in the second heat sink, the second connector being electrically connected to the electronic fan, and being brought*

into connection with the first connector to supply power to the electronic fan when coupled with the electronic apparatus, as recited by independent claim 19. Therefore, Applicant respectfully submits that independent claim 19 distinguishes over the cited art.

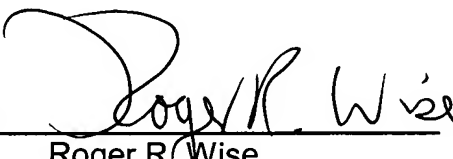

Dependent claims 20-24 depend, directly or indirectly, from independent claim 19. Therefore, Applicant respectfully submits that dependent claims 20-24 distinguish over the cited art for the same reasons discussed above in regard to independent claim 19.

Applicant believes that the foregoing remarks place the application in condition for allowance, and a favorable action is respectfully requested. If for any reason the Examiner finds the application other than in condition for allowance, the Examiner is requested to call either of the undersigned attorneys at the Los Angeles telephone number (213) 488-7100 to discuss the steps necessary for placing the application in condition for allowance should the Examiner believe that such a telephone conference would advance prosecution of the application.

Respectfully submitted,

PILLSBURY WINTHROP SHAW PITTMAN LLP
